

# ADDITIONAL INFORMATION

**What do I need to attend the SFWA Nebula Conference Online?**

Computer, smartphone, or tablet capable of connecting to the internet. Optional: webcam, microphone, and speakers/headphones.

**Will the panels be recorded?** They are live and we will archive recordings that attendees can view later.

**What is an online room party?** An online party held in the Zoom app is a way to interact with other conference attendees in an informal way. We use breakout rooms to limit the number of people in a conversation to a manageable number and allow the individual participants to move from conversation to conversation.

**What are Office Hours?** Office Hours allow for one-on-one or small group conversations with an expert who can answer questions about a specific topic. These are meant to be short, informal interactions.

**How do I get help with technical problems?** SFWA has a technical team a click away to help you resolve any technical issues that arise. Use the Request Help button or go to [support.sfwaworld.org](https://support.sfwaworld.org).

2020 NEBULA CONFERENCE

MAY 29 – 31, 2020

ONLINE AND WITH YOU
